Manager of Bridge Safety & Evaluation

Bridge Inspection Manual Revision No. 4

As part of the Department's continued efforts to update the Bridge Inspection Manual, the following information supersedes and/or adds to the Manual:

1. Chapter 1 – Revised
2. Chapter 2 – Deleted in its entirety
3. Chapter 3 – Revised
4. Chapter 9 - Revised
5. Measuring Clearances and Preparing Clearance Diagrams
6. Bridge Component Labeling Systems for Inspection Reporting

The revisions are available at: Revisions to the Bridge Inspection Manual

Previous Bridge Inspection Manual revisions are:

EB-2019 -2 Revision No. 3– In-Depth Inspection Criteria
EB—2017-2 Revision No. 2 – Priority Codes for Work Items and Bridge Load Ratings
EB-2016 -2, Revision No. 1 – Chapter 4: QC/QA and Resolution of Inspection Report Photographs

The Bridge Inspection Manual will be updated to reflect these changes in the future.
