Henry Cobb, Jr. See chart in file.

4/13/36 - 30 MQ *Castanea mollissima*
8/7/37 Planted on dry lawn site. Lost all but 5
from drought. One best tree is at corner
chicken house, 5 ft. high, $3\frac{1}{2}$ ft current growth.
would like more trees 1938 for planting in
cultivated plots but in my opinion all such
areas there are filled with fruit trees etc. RBC
