Prof. J. R. Cooper
Univ. of Ark.

Remarks: (Professors Cooper and Drake
are both at the Univ. as of
1942-43.)

O. Julander now assoc. For. (12/12/46)

7/8/46 mimeo = 30 out of 150 trees now living. About 1/2 of
the trees in plantation were pruned in 1940 in an at-
tempt to produce a more upright tree & every one
died the following summer. Cuts from this plan-
tation of poor quality, & when dry very hard and
chalky.
