Weevil Memo Sent 1948

Bartlett Tree Research Laboratories

5/25/44 - Stanley W. Bromley wrote "Here the chestnuts have been gradually increasing in size during the past 8 or 10 years, although this may be due to the general health of the trees as a result of farding, spraying, etc."

11/12/46 - See R.P. Marshall letter 11/12/46 re the "Callis's" article
