

and one died because it was planted near
an overflow pipe of septic tank. The other
tree has been bearing for last six years.
It is hardy & "is blight proof or resistant."
"Relative to the other chestnut trees, the oldest
--- 30 years. This is also very blight re-
sistant." Mr. D.F. Jones, Conn. Ag. Sta., has nuts from
this [miracle, I guess] tree.
10/25/44 - GFS wrote he got 3 trees # 70314, C. vol.,
in March 1930.

Says he has cured several trees of blight. See
his write-up about it in his file, attached
to order for seed (1949.)
