July 25, 1946. Trees all grew + did well. Only 10 trees now living + have been bearing nuts for past 4 years. Blight on trees for last 5 years but has not spread much, kept down by pruning out the blighted twigs

8/14/51 - Only 8 now living, 4 died of blight. Bare good crop last year + nuts of good quality. Small crop this year. (over)
