

13.0 DOCUMENT PREPARERS

The following organizations have contributed to this document.

Sponsoring Agency: University of Connecticut

Implementing Agencies: University of Connecticut Office of Environmental Policy
Town of Mansfield, Connecticut

A brief description of authors and contributors follows.

The primary author of this Environmental Impact Evaluation is the consulting firm of:

MILONE & MACBROOM, INC.
99 Realty Drive
Cheshire, Connecticut 06410
(203) 271-1773

Milone and MacBroom, Inc. is a professional consulting firm comprised of engineers, planners, environmental scientists, landscape architects, and surveyors. A brief description and list of Milone and MacBroom, Inc. staff involved with the preparation of this document follows:

David Murphy, P.E., CFM, Associate – Mr. Murphy has served as the project manager of this Environmental Impact Evaluation (EIE) as well as a technical contributor. Mr. Murphy holds a Bachelor of Science degree in Geological Sciences and a Masters of Science degree in hydrology. He is a licensed professional engineer in the State of Connecticut. Mr. Murphy has conducted and managed many environmental impact evaluations in Connecticut pursuant to the Connecticut Environmental Policy Act (CEPA). His project experience includes water supply planning, new source development, regulatory permitting, water resource protection, and water system emergency response planning.

Jeanine Armstrong Gouin, P.E., Vice President – Ms. Gouin has served as the project administrator and editor of this EIE. She holds a Bachelor of Science degree in civil engineering and is a professional engineer licensed to practice in the State of Connecticut. Ms. Gouin has conducted and managed many environmental impact evaluations in Connecticut pursuant to CEPA. Her technical background has focused on water resources, water supply, ecological resources, and environmental permitting.

Scott J. Bighinatti, Senior Environmental Scientist – Mr. Bighinatti has served as a primary author of this EIE and technical contributor. He holds Bachelor of Science and Master of Science degrees in Natural Resources. Mr. Bighinatti has notable expertise in hydrogeology, water supply planning, numerical modeling, and geographic information systems.

William A. Root, Senior Environmental Scientist – Mr. Root has provided technical expertise in the areas of wetland and wildlife biology. Mr. Root holds a Bachelor of Arts degree in Biology, a Bachelor of Science degree in Environmental Science, and a Master of Science degree in Forestry

and Environmental Studies. He is a certified professional soil scientist with specific expertise in wetland science and biological resources.

Matthew J. Sanford, Associate – Mr. Sanford has provided technical expertise in the areas of wetland and wildlife biology. Mr. Sanford holds a Bachelor of Science degree in Natural Resource Management and a Master of Science degree in Wetland Biology. He is a certified professional soil scientist and professional wetland scientist with specific expertise in wetland science and biological resources.

George G. Caughman, P.E., Water/Wastewater Engineer – Mr. Caughman provided technical expertise on water utility upgrade design and cost estimation. He holds Bachelor of Science degrees in Psychology and Mechanical Engineering and is a licensed professional engineer with over 30 years of experience. His background includes construction inspection and design of potable water systems, pumping stations, sewage treatment plants, force mains, and power plants.

Alex M. Cosentino, P.E., BCEE, Water/Wastewater Engineer – Mr. Cosentino provided technical expertise for infrastructure design and cost estimation. He holds a Bachelor of Science degree in Environmental Engineering and is a licensed professional engineer in the State of Connecticut. His background includes a wide range of design and construction experience in public sector development.

Thomas Knowlton, P.E., BCEE, Water/Wastewater Engineer – Mr. Knowlton provided technical expertise for infrastructure design and cost estimation. He holds a Bachelor of Science degree in Civil Engineering and is a licensed professional engineer in the State of Connecticut. His background includes a wide range of design and construction experience in water and wastewater projects.

Tracy Bloch, E.I.T., LEED, Civil / Structural Engineer – Ms. Bloch provided technical expertise related to infrastructure design and cost estimation. She holds a Bachelor of Science degree in Civil Engineering and is an Engineer-In-Training in the State of Connecticut. Her background includes a wide range of civil and structural projects.

Michael Zuba, AICP, Senior Land Use Planner – Mr. Zuba has contributed to the analysis of land use, socioeconomics, and community facilities and services. Mr. Zuba holds Bachelor of Science and Master of Science degrees in Environmental Science and is a certified land use planner.

Additional technical support was provided by the following individuals:

- Rebecca Augur, AICP, Land Use Planner
- Becky Meyer, E.I.T., Water Resources Engineer
