Scoping Notices

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated.

The following Scoping Notices have been submitted for review and comment.

1. Notice of Scoping for: I-84 Hartford Project

Municipality where proposed project might be located: Hartford, CT

Address of Project Location: I-84 from approximately Hamilton Street to I-91 interchange in downtown Hartford.

Project Description: The I-84 Hartford Project was initiated by the Connecticut Department of Transportation (CTDOT) to address structural deficiencies, improve traffic operations and safety, and reduce congestion on I-84 mainline and its interchanges from approximately Hamilton Street to I-91 in the City of Hartford. At the same time, the I-84 Hartford Project will strive to reduce the highway's adverse impact and footprint on the City, while integrating it more closely into the regional multimodal and interstate transportation system, both existing and planned.
