

Connecticut Information Sharing System Status Meeting

April 22, 2015

Welcome

~ a few reminders ~

- Please sign in.
- Silence cell phones and electronic devices.
- Feel free to ask questions throughout the presentation; please state your name, agency and whether you represent the business or technical area.
- We want to hear what you have to say; one conversation at a time.
- For those on the phone, please set your phone to mute.
- Share CISS information with your agency counterparts.
- Please follow up with a CJIS team member with your comments, suggestions and feedback.
- Thank you for attending.

Agenda

- CISS Status
 - What is FBI Data?
 - Project Updates
 - Community Portal Demo
 - Misc. Project Concerns
- Questions and Answers

What is FBI Data?

FBI Criminal Justice Information

- “CJI” is the term covering the five categories of FBI-provided criminal justice information data necessary for law enforcement and civil agencies to perform their missions:
 - Biometric Data
 - Identity History Data
 - Biographic Data
 - Property Data
 - Case/Incident History
- Criminal History Record Information (CHRI) is a subset of CJI sometimes referred to as “restricted data”
- CHRI requires additional security measures

What is FBI Data?

Definitely Not FBI Data

- An in-state arrest record that is not attached to, or combined with, information on out-of-state arrests or FBI-sourced information
- FBI ID or transaction numbers by themselves

Definitely FBI Data

- An out-of-state arrest record
- Information sourced from a request to the FBI
- An in-state arrest record to which FBI information (Example: subject's FBI ID number) has been added

Situational – One Becoming The Other

- An in-state arrest record to which an FBI ID number has been attached becomes FBI data.
- The same record with the FBI ID number stripped off is not FBI data

CISS Project Update

Working Sessions

Complete:

March

- R. 1 – Validate OBIS and PRAWN Search Requirements
