Book summary from the publisher's website: *Family Drug Courts: An Innovation of Transformation* offers a wealth of information about the struggles of real people who have been drawn into the court system

and have lost their children due to substance abuse. You will read about their personal journeys and a courtroom that gave them hope, and then gave them their lives and their children back. This book is for the professional who works with these families. It is for anyone that wants to get a front-row seat to what happens in this ordinarily confidential setting and for those who have had their own battle with mental health and addiction. This book is full of inspiration, and it contains a model for change that can transform individuals and communities everywhere.
