CT WAP Operations and Training Manual 2019- Section 406.7, 419

Standard Work Specifications- 2.0100.1P

DOE WPN 17-7

Time Sensitive Compliance

CT WAP recognizes that the Installation of Weatherization materials and services are delivered on a prioritized basis and the time between the Application, Audit and Installation can vary.

CT WAP wants to emphasize that The EPA RRP Pre-Renovation Education Rule must be adhered to with no exceptions. The following excerpts from EPA RRP are provided as a reminder to reference this section of the RRP rule:

***Renovation firms are required to provide the Renovate Right pamphlet** to owners/residents prior to renovation activities in pre-1978 housing and child occupied facilities.

***No more than 60 days before beginning a renovation,** Certified Renovation Firms must distribute the Renovate Right pamphlet and **either obtain the owners written acknowledgement or proof that the pamphlet was sent by certified mail, return receipt requested, at least 7 days before the renovation began.**

*** All proof of receipt/mailing/delivery records must be kept for 3 years after completion** of the renovation.

*** CT WAP will disallow any and all costs for installed measures which fail to document compliance with the EPA RRP Pre-Renovation Education rule in its entirety, and immediately require corrective action to be taken by the Sub-Grantee and or its contractors.**
