

Residential and Non-Residential Bottles, Cans, and Paper Reported Received by Connecticut Solid Waste Recycling Facilities and Recycling Transfer Stations FY2008

Data presented below is based on information submitted to the Connecticut Department of Environmental Protection (DEP) by Connecticut permitted solid waste recycling facilities and recycling transfer stations as entered into the Connecticut DEP Solid Waste Database as of 5/3/2010. Due to several reporting inaccuracies in FY2008 regarding the municipality of origin vs the regional solid waste facility of origin, the tons received from each municipality were not included in the tables below.
