

## Connecticut Resident Age-Specific Mortality Rates by Sex, 1989-1993

## Causes of Death for the Age-Specific Mortality Tables

|   | Page |  | Page |
|---|------|--|------|
| All causes                                | 2    | Hypertension with or without renal disease | 33   |
| Infectious diseases and parasitic disease | 3    | Hypertension-related                       | 34   |
| Septicemia                                | 4    | Cerebrovascular disease                    | 35   |
| Septicemia-related                        | 5    | Atherosclerosis                            | 36   |
| HIV infection                             | 6    | Atherosclerosis-related                    | 37   |
| All cancer                                | 7    | Aortic aneurysm                            | 38   |
| Oral cavity or pharynx                    | 8    | Pneumonia & influenza                      | 39   |
| Colorectal cancer                         | 9    | Chronic obstructive pulmonary disease      | 40   |
| Colon cancer                              | 10   | COPD-related                               | 41   |
| Rectal cancer                             | 11   | Asthma                                     | 42   |
| Pancreatic cancer                         | 12   | Chronic liver disease and cirrhosis        | 43   |
| Lung and other respiratory cancer         | 13   | Nephritis, nephrotic syndrome/nephrosis    | 44   |
| Lung cancer                               | 14   | Nephritis-related                          | 45   |
| Malignant melanoma of skin                | 15   | End stage renal disease                    | 46   |
| Female breast cancer                      | 16   | Unintentional injuries                     | 47   |
| Cervical cancer                           | 17   | Motor vehicle accidents                    | 48   |
| Endometrial cancer                        | 18   | Falls and fall related injuries            | 49   |
| Ovarian cancer                            | 19   | Drowning                                   | 50   |
| Prostate cancer                           | 20   | Residential fires                          | 51   |
| Bladder cancer                            | 21   | Suicide                                    | 52   |
| Brain & other CNS cancer                  | 22   | Homicide and legal intervention            | 53   |
| Leukemia                                  | 23   | Homicide                                   | 54   |
| Diabetes mellitus                         | 24   | All injury                                 | 55   |
| Diabetes-related                          | 25   | All motor vehicle accidents                | 56   |
| Diabetic ketoacidosis                     | 26   | All falls                                  | 57   |
| Alzheimer's diseases                      | 27   | All firearms                               | 58   |
| Cardiovascular disease                    | 28   | Suicide                                    | 59   |
| Diseases of the heart                     | 29   | Homicide                                   | 60   |
| Heart disease-related                     | 30   | All poisoning                              | 61   |
| Coronary heart disease                    | 31   | Alcohol-induced                            | 62   |
| Congestive heart failure                  | 32   | Drug-induced                               | 63   |

Comparison of the CT Resident AAMR (1940 Std. mil.) vs:  
. The CT HP 2000 target: CT rate is not significantly different  
. The U.S. AAMR (1940 Std. mil.): CT rate is lower  
. THE U.S. HP 2000 target: No comparison is available

## Connecticut Resident Age-Specific Mortality Rates by Sex, 1989-1993

Comparison of Connecticut age-adjusted mortality rates (AAMRS) to  
U.S. AAMRs and U.S. Healthy People (HP) 2000 target objectives  
for

-----Drowning (E830,E832,E910)-----
