## Documentation

Please note, the data points represented in this report are intended to be viewed as a snapshot of the information we have in the Veyo system at the time the report was created.

**Trips Booked:** Count of trips in the system broken down by the requested trip date. This includes trips of all statuses; i.e. completed, cancelled (for any reason), deleted, denied, etc. The other metrics displayed in this report are not necessarily mutually exclusive.

**Cancelled Trips:** Trips cancelled on or after the date of the requested trip are considered in our cancellation trip counts and rates. We do not include trips cancelled prior to the trip date because these trips do not have the same impact as trips that were cancelled after being sent to and confirmed by the provider.

**Cancellation Rate:** For all rate calculations, we take the numerator (in this case cancelled trips) and add it to the number of completed or assumed completed trips for the denominator. We are excluding Public Transit and Mileage Reimbursement in these calculations.

**Cancellations by Source:** This shows a breakdown of who the trip was cancelled by or how the trip was cancelled. The Contact Center category includes Member and Facility cancellations.

**Cancellations by Reason:** This shows a breakdown of reason for cancellation. For example, if the member called the provider to cancel a trip, this trip would show the provider as being the cancellation source and Member Cancelled would be the cancellation reason. Trips that are cancelled under the reason "Not Finalized" are trips that were not finalized by the provider by the deadline and therefore cancelled. Providers must enter required trip data in the Veyo Portal to "finalize" their trips and submit the trips for payment. This must be completed within 7 days of the trip date. Trips that are not finalized within 7 days of the trip date are considered an untimely claim and are cancelled.

**Trip Removal & Data Correction:** These are trips that have been cancelled prior to the requested trip date. During the implementation phase, many of these trips are invalid trips that get cancelled during our data cleaning process in an attempt to reduce the number of "bad trips" being sent to providers. These trips are not included in the other metrics shown in this report, and they are grouped based on the date of cancellation as opposed to the date of the trip.

**Complaints:** All complaint counts include both resolved and unresolved complaints, based on the date the complaint was reported. All complaints are reported by or on behalf of the member.

**Denied Trips and Notices of Action:** One NOA is sent for every denied trip booking request. For example, if a member requests a 5 day per week standing order trip that is denied, this would show as 5 trip denials for the week in question, but only 1 NOA would be sent to this member for this trip booking request. This report shows the number of members who have received NOAs; however, if a member gets denied on multiple requests, they could receive multiple NOAs. Members may also exist in multiple NOA buckets; however, each individual member will only appear in the "Total Members Receiving NOAs" count once.

**Unfulfilled Trips:** This metric is representative of all valid trip requests that did not get fulfilled either as a result of a member no-show, a provider no-show, or trips that did not get matched to a provider (shows as **Trips Not Confirmed**). We have further broken down this metric into three buckets: 1. Critical, e.g. Chemotherapy, Dialysis, etc. 2. Non-critical, e.g. all other appointment types 3. Ineligible; trips booked for members who are no longer eligible for the service, meaning the trip is no longer valid. Please note that unfulfilled trips and cancelled trips are not mutually exclusive.
