

# STATE OF CONNECTICUT DEPARTMENT OF MOTOR VEHICLES

60 STATE STREET WETHERSFIELD, CONNECTICUT 06161

On The Web At [ct.gov/dmv](http://ct.gov/dmv)

## Requirements for Certification of Conformity with State and Federal Statutes

Dear Applicant:

Thank you for your interest in obtaining a Connecticut Manufacturer's License. The Department of Motor Vehicles (DMV) will require that you:

- Provide photographs depicting the motor vehicles, motorcycles, mopeds or motor driven cycles, including three wheeled vehicles, trailers, buses or heavy trucks that you intend to offer for sale in the State of Connecticut;
- Provide certification by a licensed engineer that all motor vehicles, motorcycles, trailers, buses or heavy trucks that are offered for sale in Connecticut are in full compliance with all applicable Connecticut General Statutes and Federal Motor Safety Standards (FMVSS) 49 CFR Part 571, and other applicable Federal laws or regulations. DMV reserves the right to review test results from any and all testing.

DMV's current review will be based only upon the model or models that you are currently submitting. If your company intends to release any new and/or additional models, DMV's approval will be required and it will be necessary for you to repeat the certification process for each new and/or additional model(s). Please note that while some vehicles may be in compliance with all required motor vehicle standards, they may not be able to be registered in the State of Connecticut. It is your responsibility to determine whether a vehicle qualifies to be registered in this state and require your dealers to inform customers accordingly.

The Regulated Business License Division will contact you if there are questions pertaining to your application.
