The parties have conferred with the Commission for purposes of mediation. The respondent has represented that the documents listed as items 1), 2) and 3) in the Hinds letter of January 26, 1976 to Treasurer Parker, a copy of which is part of the complaint, are not in possession of the Treasury Department. Based upon this representation, the parties have jointly agreed and stipulated that, effective March 2, 1976, the respondent will provide access to the public record described in the complaint as item 4 of the Hinds letter.

I recommend that the Commission approve this agreement as the disposition of this complaint.
