I. PARTNERSHIP EXPANSION & RECIPROCITY CONTINUES

The Deficit Reduction Act (DRA) of 2005 removed restrictions that had been in place since 1993 on new states who wished to develop Partnership for Long-Term Care programs. With these restrictions lifted, the DRA set the stage for Partnerships to expand to new states.

There are currently 36 new states, in addition to the four original Partnership programs in California, Connecticut, Indiana and New York.

The 36 new Partnership states that have received approval to implement Partnership programs are: **Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington, West Virginia, Wisconsin and Wyoming.**

As reported in previous *Quarterly Updates*, on March 27, 2009, Connecticut received approval from the federal government to join the National Reciprocity Compact for the granting of Medicaid Asset Protection for states with Partnership programs. The approval was retroactive to January 1, 2009. **However, all Connecticut Partnership policyholders are covered under the Reciprocity Compact, regardless of when they purchased their Partnership policy.**

Under the terms of the Reciprocity Compact, Connecticut Partnership policyholders who relocate to another state may be eligible to receive dollar-for-dollar Medicaid Asset Protection just as they would when they apply to Connecticut's Medicaid program. Two conditions must be met for a policyholder to be eligible for reciprocity in another state: (1) the policyholder must apply to and qualify under the other state's Medicaid program; and (2) at the time the policyholder applies to the other state's Medicaid program, Connecticut and the other state must be members of the Reciprocity Compact or Connecticut must have a separate reciprocal agreement with that state for the granting of Medicaid Asset Protection.

The Reciprocity Compact requires that any state participating in the Compact must agree to engage in reciprocity with every other state in the Compact for the purpose of granting dollar-for-dollar Medicaid Asset Protection.

All of the new Partnership states are part of the Reciprocity Compact. Of the four original Partnership states (CA, CT, IN & NY), Connecticut, Indiana and New York have joined the Reciprocity Compact. California has indicated that, at this time, they do not plan to apply to join the Compact.

In addition, the original reciprocity agreement between Connecticut and Indiana remains in effect.

For a list of states currently participating in the Reciprocity Compact, go to the following website -

For more information for yourself, as well as for your clients, the Partnership has developed a handout on the Reciprocity Compact which includes a Frequently Asked Questions section. The handout can be accessed through the Partnership website at the following link:

The Department of Health and Human Services has contracted for the development of a website where information on new Partnership programs is available. The link to the website is <http://www.dehpg.net/ltpartnership/> We suggest you periodically check the website to see what new information has been included.

II. MEDICAID ASSET PROTECTION **EXPANDS THE LONG-TERM CARE INSURANCE MARKET**

One of the biggest advantages of the Partnership's Medicaid Asset Protection feature is that it can expand your market for suitable long-term care insurance candidates. Medicaid Asset Protection allows consumers to purchase an amount of insurance based on the amount of assets they wish to protect. For those with more moderate amounts of assets, the Partnership can make the purchase of long-term care insurance more affordable since they can tailor their purchase to their level of wealth.

The Partnership allows you to expand your potential market and helps make the purchase of long-term care insurance more of a reality for the middle class.

With a non-Partnership policy, consumers take some level of risk if they purchase anything less than lifetime or unlimited benefits since they will still be exposed to spending down their assets if they outlive their insurance benefits. Medicaid Asset Protection makes the purchase of shorter term coverage (i.e., 1, 2 or 3 years of coverage) a more suitable and feasible purchase based on someone's assets and the amount of income they can spend on the policy.
