(1) "Local government" means any political subdivision of the state having power to make appropriations or to levy taxes, including any town, city or borough, consolidated town and city or consolidated town and borough, any village, any school, sewer, fire, water or lighting district, metropolitan district, any municipal district, any beach or improvement association, and any other district or association created by any special act or pursuant to chapter 105, or any other municipal corporation having the power to issue bonds;

(2) "State mandate" means any constitutional, statutory or executive action that requires a local government to establish, expand or modify its activities in such a way as to necessitate additional expenditures from local revenues, excluding any order issued by a state court and any legislation necessary to comply with a federal mandate;

(3) "Local government organization and structure mandate" means a state mandate concerning such matters as: (A) The form of local government and the adoption and revision of statutes on the organization of local government; (B) the establishment of districts, councils of governments, or other forms and structures for interlocal cooperation and coordination; (C) the holding of local elections; (D) the designation of public officers, and their duties, powers and responsibilities and (E) the prescription of administrative practices and procedures for local governing bodies;

(4) "Due process mandate" means a state mandate concerning such matters as: (A) The administration of justice; (B) notification and conduct of public hearings; (C) procedures for administrative and judicial review of actions taken by local governing bodies and (D) protection of the public from malfeasance, misfeasance, or nonfeasance by local government officials;

(6) "Service mandate" means a state mandate as to creation or expansion of governmental services or delivery standards therefor and those applicable to services having substantial benefit spillover and consequently being wider than local concern. For purposes of this section, applicable services include but are not limited to elementary and secondary education, community colleges, public health, hospitals, public assistance, air pollution control, water pollution control and solid waste treatment and disposal. A state mandate that expands the duties of a public official by requiring the provision of additional services is a "service mandate" rather than a "local government organization and structure mandate";

(9) "Personnel mandate" means a state mandate concerning or affecting local government: (A) Salaries and wages; (B) employee qualifications and training except when any civil service commission, professional licensing board, or personnel board or agency established by state law sets and administers standards relative to merit-based recruitment or candidates for employment or conducts and grades examinations and rates candidates in order of their relative excellence for purposes of making appointments or promotions to positions in the competitive division of the classified service of the public employer served by such commission, board or agency; (C) hours, location of employment, and other working conditions and (D) fringe benefits including insurance, health, medical care, retirement and other benefits.
