INTRODUCTION

A. Purpose

This document summarizes information regarding Personal Service Agreements for State fiscal year 2013.

B. Background

A *Personal Service Agreement* (PSA) is a duly executed and legally binding contract that defines the services or end products to be delivered by a Personal Service Contractor to a State agency. It is one of the primary mechanisms used by the State for procurement purposes. Typically, a PSA is used to purchase infrequent and non-routine services or end products, such as consulting services, technical assistance, and training. By law, no State agency may hire a Contractor to deliver such services or end products without first executing a PSA.

C.G.S. § 4–212 defines who is included and who is not included in the term “Personal Service Contractor.” Included is “any person, firm or corporation not employed by the State, who is hired by a State agency for a fee to provide services to the agency.” Not included in the term “Personal Service Contractor” are the following:

- (a) a person, firm or corporation providing contractual services to the State, as defined in C.G.S. § 4a–50;
- (b) certain consultants hired by the Division of Construction Services, as defined in C.G.S. § 4b–55;
- (c) certain consultants hired by the Department of Transportation, as defined in C.G.S. § 13b–20b;
- (d) agencies of the federal government, State government, or political subdivisions of the State; and
- (e) certain consultants hired by the Department of Information Technology, as defined in C.G.S. § 4d–2(c)(5).

A State agency wishing to enter into a PSA must adhere to the requirements set forth in the Connecticut General Statutes, Title 4, Chapter 55a, Part II, Sections 212 - 219, inclusive. Section 4-217 requires the Secretary of the Office of Policy and Management (OPM) to establish standards for State agencies to follow when entering into a PSA. Pursuant to this statute, the standards must include, but are not limited to, (1) evaluating the need for a PSA, (2) developing a Request For Proposals, (3) advertising for Contractors, (4) evaluating submitted proposals, (5) selecting a Contractor, (6) monitoring and evaluating Contractor performance, (7) documenting the process for selecting and managing Contractors, and (8) carrying out any other aspect of such process.

Also pursuant to Section 4-217, each agency must establish written procedures for implementing the standards established by OPM’s Secretary. The written procedures must be submitted to the Secretary for approval. Upon receiving the Secretary’s approval, an agency may enter into a PSA based on the approved procedures. If the Secretary disapproves an agency’s procedures, OPM must return them to the agency with recommendations for revisions. No State agency may enter into a PSA unless the Secretary has approved the procedures established by an agency.

C. Scope and Methodology

This report describes the contracting activities of executive branch agencies with respect to Personal Service Agreements. Contracting activities of the legislative and judicial branches of state government are excluded from this report.

PSA data for this report is gathered using Core-CT , the statewide financial system. State agencies are required to enter their PSAs into Core-CT as a contract. Required fields to be entered include, but are not limited to, contract ID, contract type, begin and end dates, contract maximum amount, description of services, contractor name and funding information. The data presented in this report is only as accurate as the contract data entered by State agencies into Core-CT.

OPM summarizes the information and submits an annual report to the General Assembly. The data in this report represents PSAs that were in effect during SFY2013. PSAs can range from a few months to several years in duration. Accordingly, the total dollar amount of a PSA may represent several years of activity. Also, many PSAs overlap during a fiscal year. For example, if a PSA ends December 31st and a new PSA starts with the same provider on January 1st, then two contracts (and two contract amounts) would be included in this report. In addition, several PSAs have open ended extended terms with large dollar amounts associated with them. Due to these factors, this report represents several years of PSA contracting activity, not just annual activity.

The payment amounts presented in this report are payments made by State agencies to Personal Service Agreement contractors during SFY2013. The 2013 payment column in the attached sheets reflects the total payments under the contract, with the amounts included in the Federal and Private Payment columns being part of this total amount. Please note that annual payment amounts are often substantially less than the total contract amounts. This is due to the fact that the total contract amounts may represent more than one year of contracting activity while the payment amounts represent activity for one year. For this reason, the annual payment amounts are a better gauge of annual contracting activity.
