Guidance: The Juvenile Justice and Delinquency Prevention Act of 1974, as amended (JJDP), assists states in efforts to prevent and control juvenile delinquency, provide proper and adequate treatment for troubled youth, and improve the juvenile justice system. To achieve these goals, the JJDP has established certain core protections (mandates) with which the states must demonstrate compliance in order to be eligible for federal funding under the JJDP Formula Grants Program. As part of this process, participating states are required to maintain a comprehensive statewide compliance monitoring system that inspects facilities, collects essential data and reports annually to the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention (OJJDP) on the extent of compliance with the following three mandates: ***Deinstitutionalization of Status Offenders (DSO)***The JJDP provides for status offenders, civil-

type offenders, and nonoffenders not to be detained or confined in secure detention or correctional facilities.

Separation of Juveniles from Adult Offenders in Secure Facilities (Separation)

The JJDPA provides for juvenile offenders, status offenders and nonoffenders not to be detained or confined in any institution in which they have contact with adult inmates.

Removal of Juveniles from Adult Jails and Lockups (Jail Removal)

The JJDPA provides for all juveniles not to be detained or confined in any jail or lockup for adults.

The Office of Policy and Management is the state agency responsible for maintaining the compliance monitoring system in Connecticut. All facilities in the state (both public and private) that have the potential to hold juveniles pursuant to public authority fall within the purview of the monitoring universe. This includes local and state police lockups, juvenile detention and correctional facilities, court facilities, adult jails and prisons, mental health hospitals and institutions, and all other public and private juvenile placement and residential facilities. Annually, data is collected from all such facilities. A minimum of 10% of the facilities must be on-site inspected each year for verification and 100% of all the facilities must have an on-site inspection once every 3 years.
