

Regional Emergency Planning Committees for Connecticut

Each Region operates under its own set of bylaws, policies, and rules. **Check with your Town Official to verify who should receive Tier II reports if a town is identified within a region. Many of the Regions are established for emergency response/emergency preparedness only and not for administrative tasks such as collecting Tier II reports.** Regional information is provided to the SERC, in writing, only by the Chief Executive Officer or Town Manager.

Regional LEPC	Chairperson	Address	Street Address	Town, Zip	Phone
