CONNECTICUT'S STATE HEALTH INSURANCE ASSISTANCE PROGRAM

CHOICES helps Connecticut's older adults and persons with disabilities with Medicare understand their Medicare coverage and healthcare options.

Certified counselors across the State provide objective, free person-centered assistance so Medicare recipients can make informed choices about their benefits. CHOICES also provides community outreach, application assistance, and information and referral services on a variety of topics including long term care services and support.

CHOICES is managed by the State Department on Aging through a partnership with the Center for Medicare Advocacy and Connecticut's Area Agencies on Aging, with funding from the State of Connecticut and the Administration for Community Living.
