PRESCRIPTION MONITORING PROGRAM

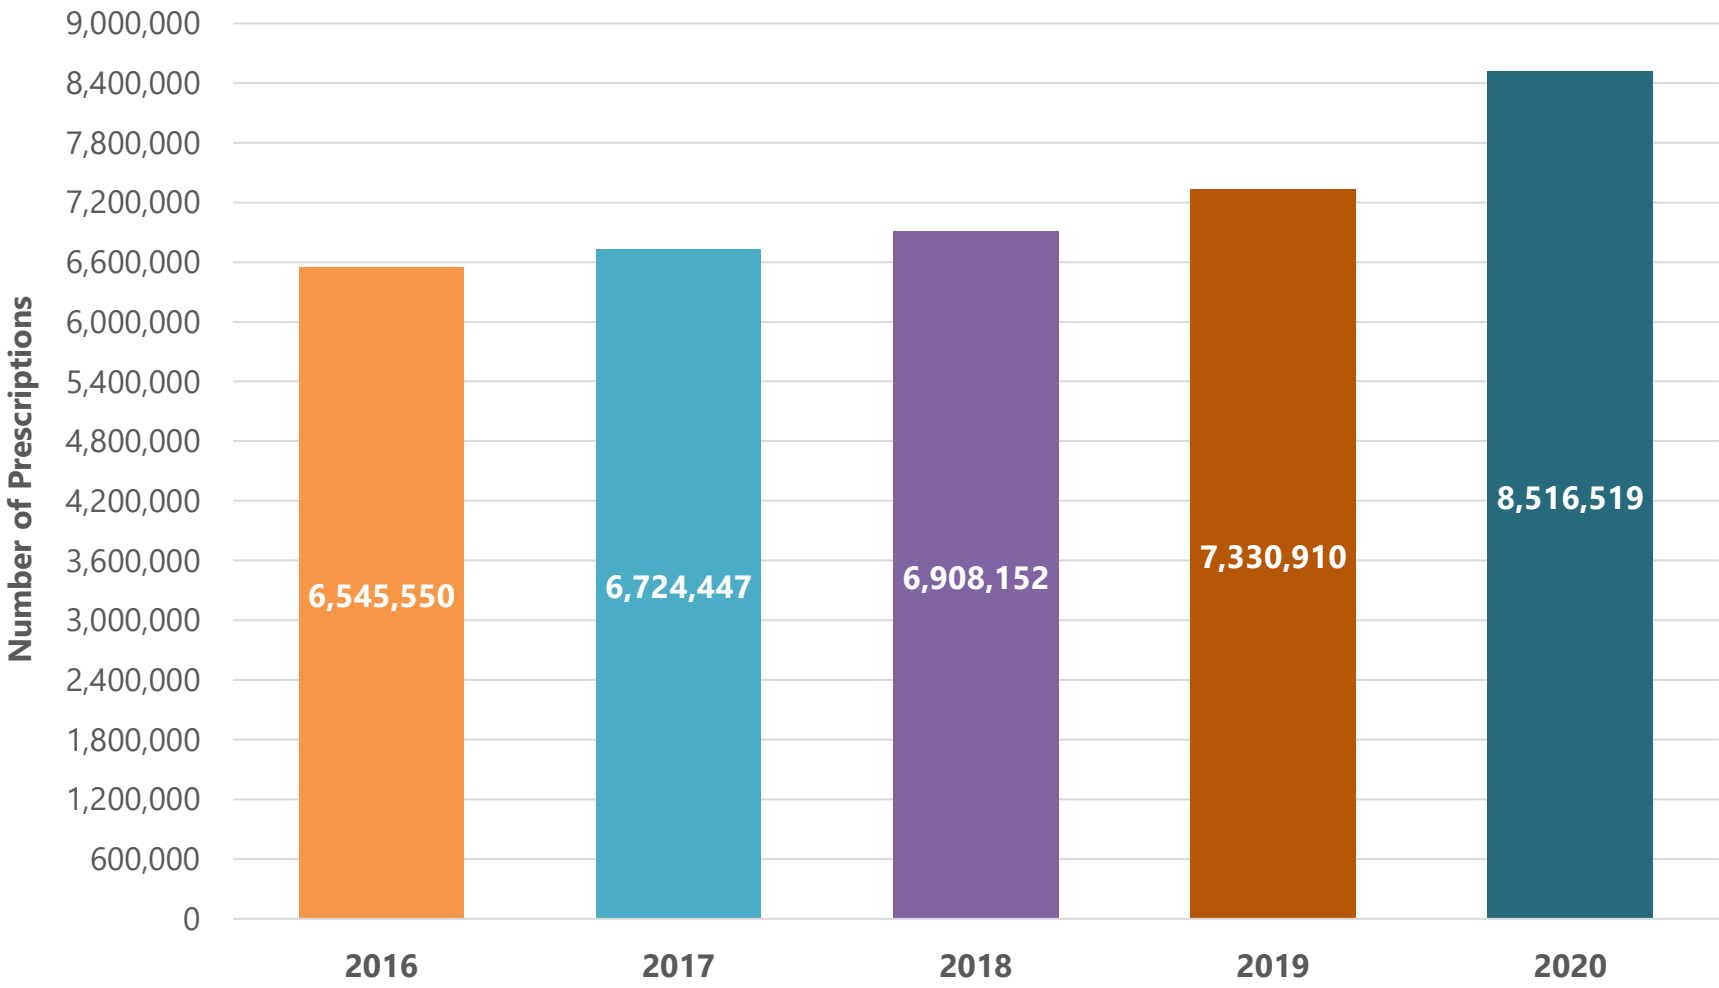

SNAP SHOT OF LEGAL CONTROLLED SUBSTANCE PRESCRIPTION
USAGE THROUGHOUT CONNECTICUT

Disclaimer

All of the data reported by the PMP is compiled at specific points in time and captures only data currently entered at that time. The data values may subsequently be updated and may change over time as those updates occur. Accordingly, quarterly reported data may not perfectly match annually reported data. The data does not contain any information about the diagnosis and does not reflect the use intended by the prescriber.

Controlled Substance Rx/Year

2020 Prescriptions by Drug Schedule

2020 Schedule II Prescriptions by Drug Class

*Other category includes: antidiarrhea agents; antiemetics, miscellaneous; local anesthetics (EENT); & unspecified

2020 Schedule III Prescriptions by Drug Class

*Other category includes: amphetamines; anticonvulsants, miscellaneous; antidepressants, miscellaneous; antidiarrhea agents; antitussives; barbiturates (anxiolytic, sedative/hyp); centrally acting skeletal muscle relaxant; & unspecified

2020 Schedule IV Prescriptions by Drug Class

*Other category includes: analgesics and antipyretics, misc.; anticonvulsants, miscellaneous; antidiarrhea agents; GI drugs, miscellaneous; opiate partial agonists; respiratory and CNS stimulants; selective serotonin receptor agonists; tricyclics, other norepi-ru inhibitors; & unspecified

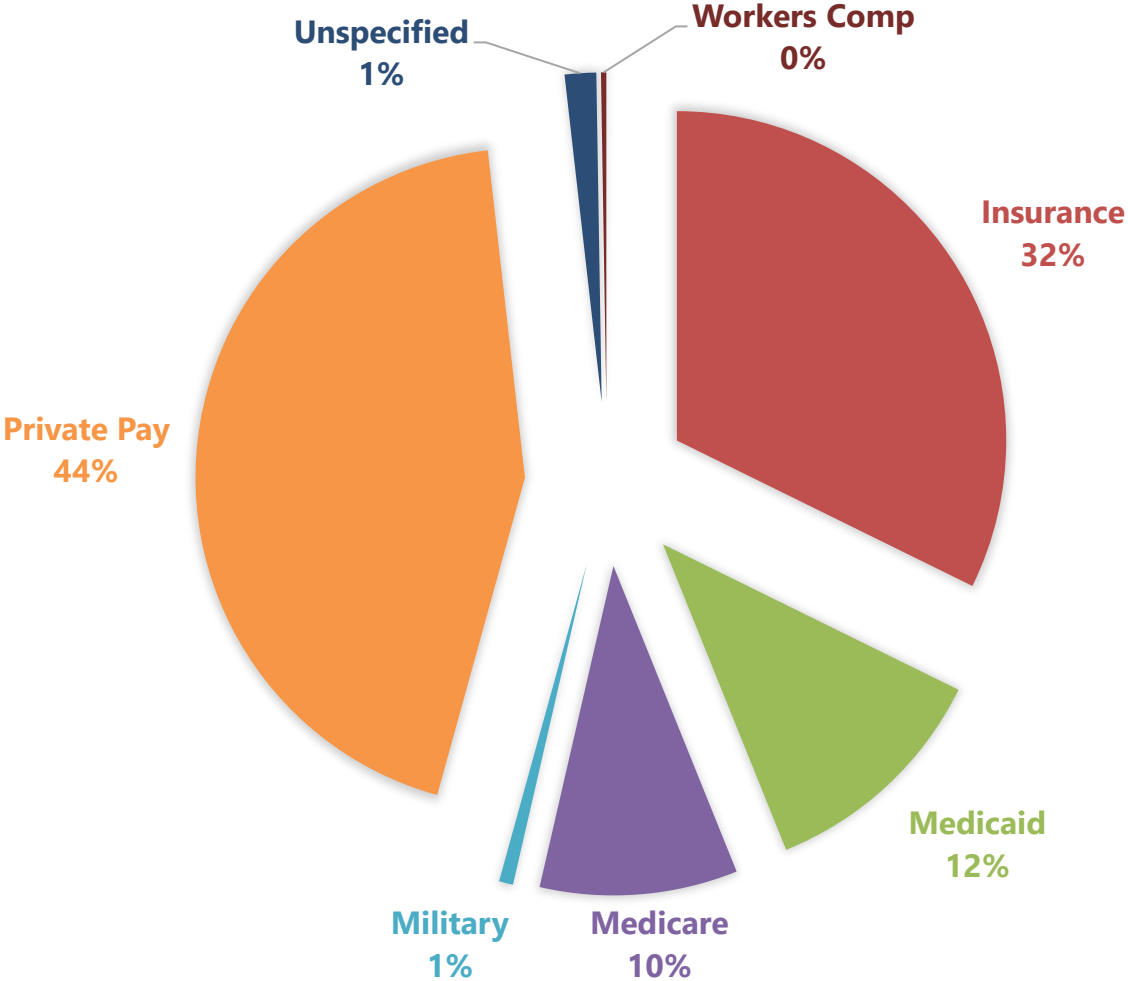

2020 Schedule V Prescriptions by Drug Class

*Other category includes: analgesics and antipyretics, misc.; opiate agonists; selective serotonin agonists; & unspecified

2020 Payment Type of Prescriptions

2020 New vs. Refill Prescriptions

2020 % Prescriptions > 90 MME vs. All

*Morphine Milligram Equivalent (MME) is a standard metric used to compare the potencies of different opioid medications. A combination of medications with an MME of 90 or above is considered a level that would put a patient at increased risk for an overdose.

Opioid vs. Non-Opioid Prescriptions

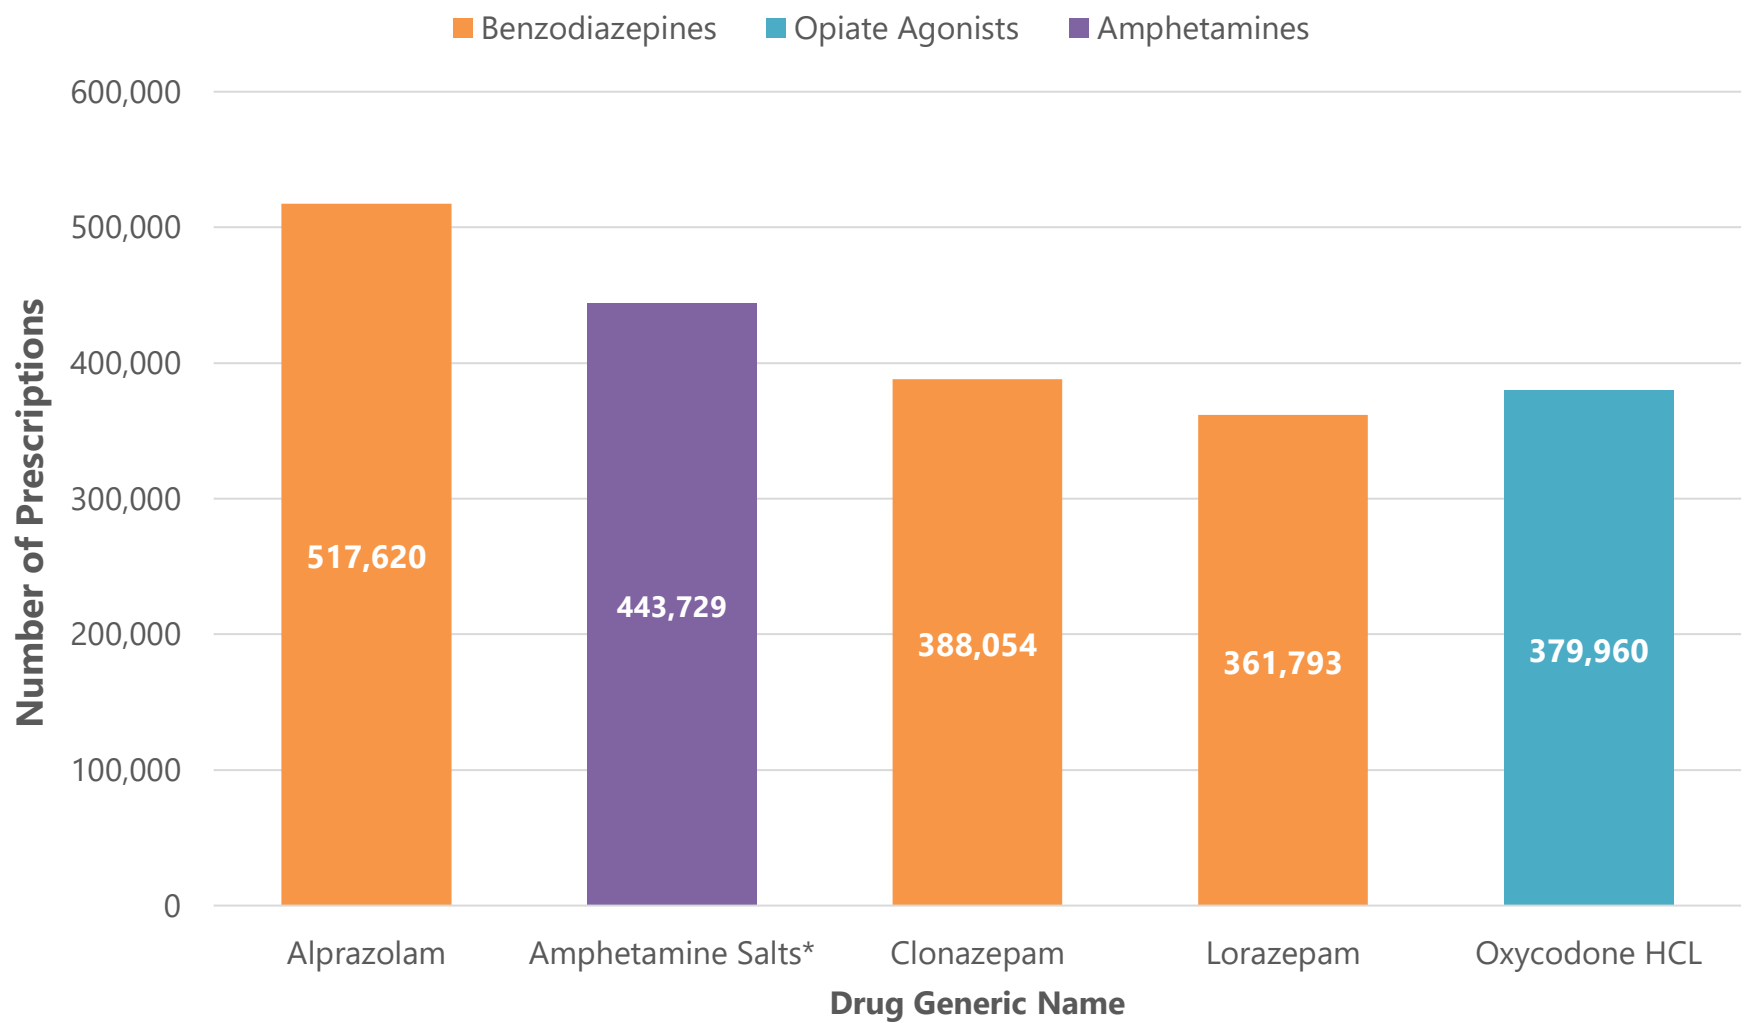

Opioid Prescriptions per Year

Benzodiazepine Prescriptions per Year

Most Prescribed Controlled Substances

*Specifically, the drug dextroamphetamine sulf-saccharate/amphetamine sulf-aspartate

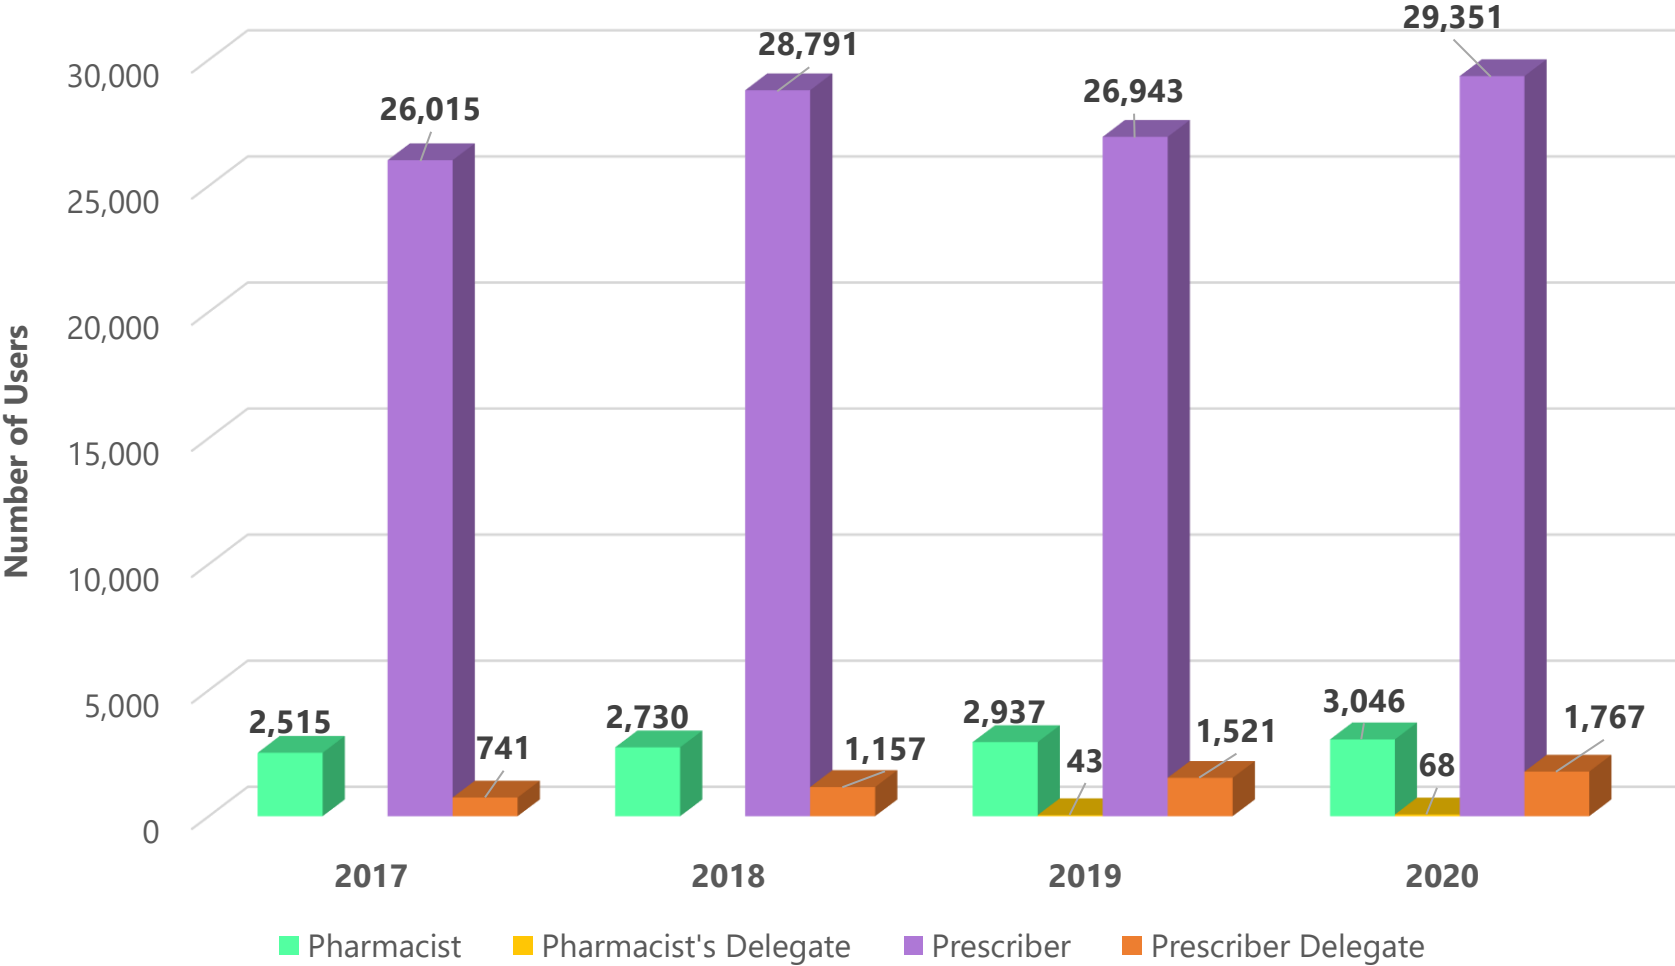

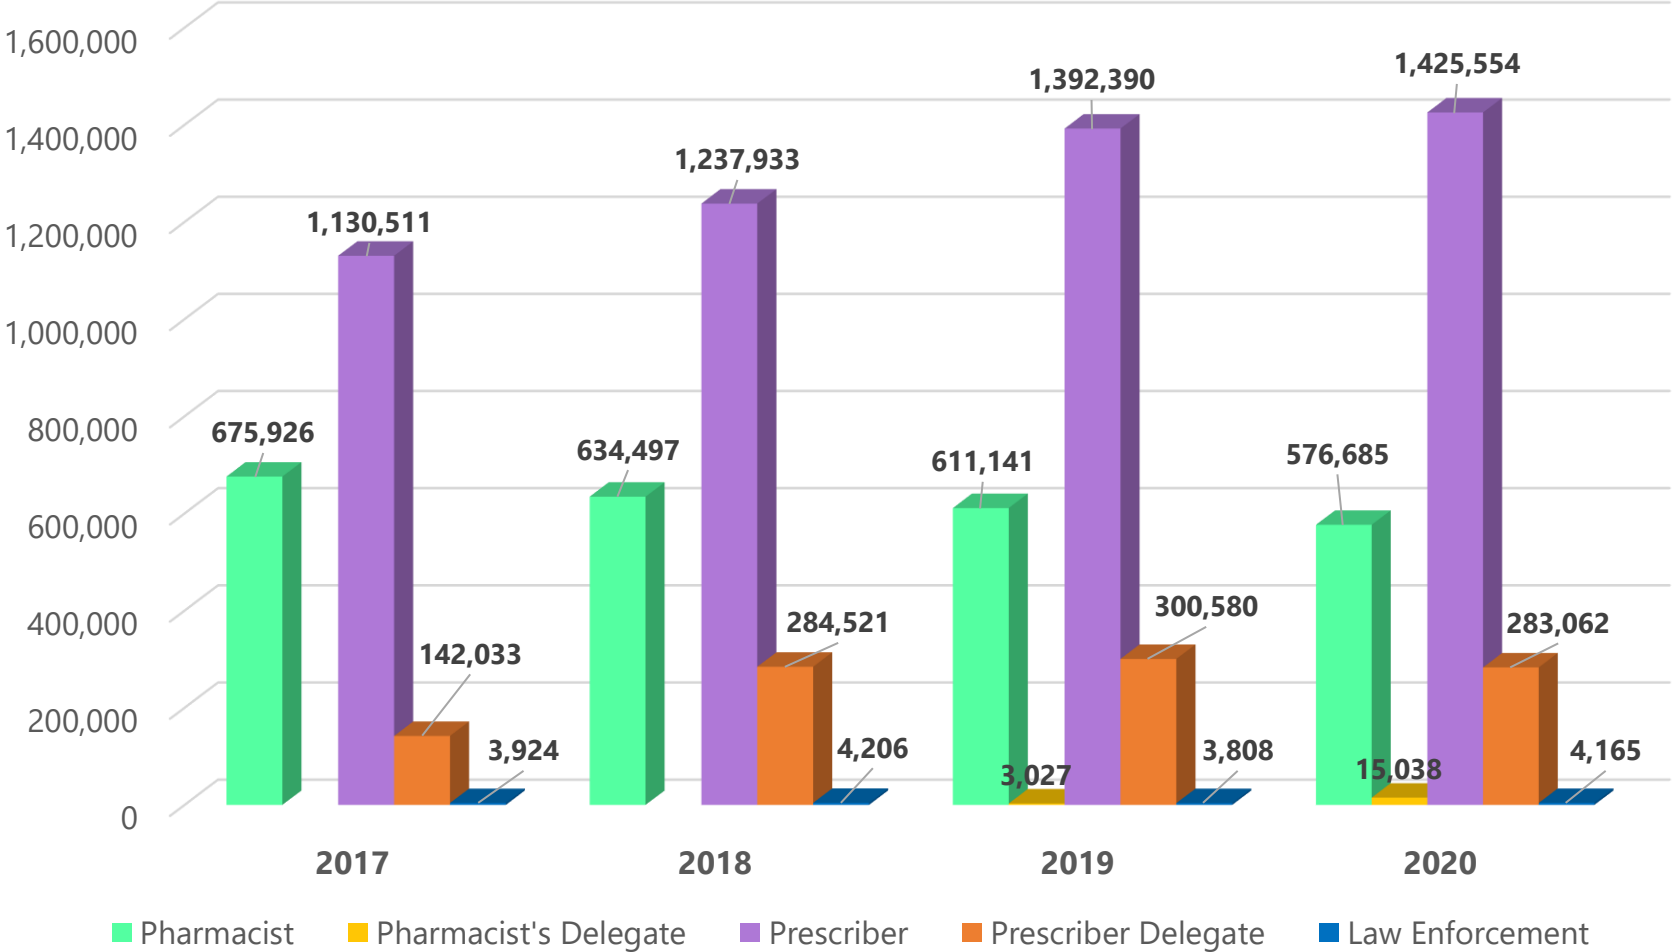

CONNECTICUT DEPARTMENT OF
CONSUMER PROTECTION

Connecticut Prescription Monitoring & Reporting System (CPMRS)

Users Registered in the CPMRS per Year

CPMRS User Searches per Year

Gateway Requests per Year

CT Controlled Substance Registrations vs. CT Practitioners Writing at least 1 CS Prescription

% of Prescribers Utilizing CPMRS who wrote at least 1 CS Prescription

*Percentages do not include prescriber delegate searches
