

November 9th 201

My name is Michael Sheehan. My brother Brendan Sheehan lived at Southbury 53 years and died at the age of 66. I strongly recommend that Southbury stay open as long as possible. My brother received excellent care and would not have lived as long if he did not live at Southbury.

During his final years he lived at the Health Care Unit Cottage H2.

Recommendation 1

The Health Care Unit should remain permanently. It is greatly needed due to the aging population and the health of the remaining clients at Southbury.

Recommendation 2

Southbury Training School could become a nursing home for the mentally retarded. It has all the special equipment which is needed for this. There is also a great demand for it.

Sincerely yours,
Michael Sheehan
