Provider Description

Information provided by the provider describing their agency:

STRIDES is a family-oriented program that encompasses a wraparound methodology when it comes to our individuals and their supports. Our overarching goal is to ensure that our clients reach their maximum potential and goals successfully. At STRIDES we pride ourselves on assisting the special needs community with the necessary tools to maximize their potential in their own way. Our mission is to Strive Towards Rewarding Initiatives while Developing Everyday Success Stories!

My experiences as a master’s level Social Worker have given me the framework to create and implement strategies and plans that encompass the social needs of clients as well as provide the necessary supports to individuals and their families. As we work toward creating behavioral changes this will allow individuals to function in a way that promotes positive behaviors in a variety of settings.

By utilizing assessment tools and functional behavioral analysis we can create an individualized plan that assists with the way you see yourself in the world and how to apply yourself in a meaningful way. Together we can work through the challenges you face and implement the changes that would be most effective.

We look forward to being the team that will help you to create your very own success story and live a meaningful life. If you would like any additional information, please feel free to contact me to set up a meeting.
