Provider Description

Information provided by the provider describing their agency:

As an ABA provider, I specialize in helping individuals with autism spectrum disorder (ASD) or other developmental disabilities learn new skills and modify behaviors. I have extensive experience working with a wide range of individuals, including those with emotional and conduct disorders, general education students, along with their caregivers, parents, and educational staff.

In addition to working with individuals diagnosed with ASD, I have trained RBTs (Registered Behavior Technicians) to effectively implement ABA therapy and work with individuals with diverse needs. I understand the importance of collaboration between caregivers, educational staff, and other professionals to ensure that treatment plans are effective and sustainable.

I am committed to providing high-quality services that are tailored to meet the unique needs of each individual. I believe that everyone has the potential to learn and grow, and I am dedicated to helping each person achieve their goals. My services include comprehensive assessments, one-on-one therapy sessions, and ongoing progress monitoring to ensure that each individual is making meaningful progress.

Whether it's improving communication skills, socialization, or reducing problem behaviors, I work closely with families and caregivers to ensure that treatment plans are collaborative and effective. I am passionate about providing a supportive and inclusive environment where individuals feel valued and respected, and where their progress is celebrated.

Overall, my experience working with a diverse range of individuals has given me a deep understanding of the unique needs and challenges that each person may face. I am dedicated to making a positive impact on the lives of the individuals and families I serve and helping them achieve their full potential.
