

STATE OF CONNECTICUT
DEPARTMENT OF TRANSPORTATION

subject: **Alternate Method of Measurement
Project 051-0260
F.A.P. #0012(132)**
Safety and Traffic Operational
Improvements of CT Route 4 from
Garden Street to Mountain Spring
Road

date: March 7, 2016

memorandum

to: **Mr. James P. Connery**
Division Chief
Bureau of Engineering and Construction

from: **John S. Dunham**
~~District Engineer - District IV~~
Bureau of Engineering and
Construction

The District is requesting that an alternate method of measurement be approved for use on the subject project to allow the use of GPS/RTS inspection tools and accompanying software to measure and calculate final pay quantities.

We have been in contact with AEC Applications (Greg Sardinkas) and understand the proficiency and documentation requirements.

The proposed method of measurement will be utilized for items paid for based on quantities of Linear Foot, Area and Volume.

Should you have any question relating to this matter, please contact Mr. Craig Albert at (203)996-0859.
