III. DISCUSSION

The department has jurisdiction over each person, association, limited liability company or corporation owning or operating a motor vehicle in livery service, pursuant to Connecticut General Statutes Section 13b-102, as amended.

In determining whether a livery permit should be granted, the department shall take into consideration the present or future public convenience and necessity. The applicant must prove that the public's convenience and necessity will be improved by the proposed service. Additionally, the applicant must show the suitability of the applicant or the suitability of the management if the applicant is a limited liability company or corporation, the financial responsibility of the applicant, the ability of the applicant efficiently and properly to perform the service for which authority is requested and the fitness, willingness and ability of the applicant to conform to the provisions of the statutes and the requirements and regulations of the department thereunder, in accordance with Connecticut General Statutes Section 13b-103.
