New Mix Program – NEPA/Design Services

1

Legal Notice, recent selection does not apply to this assignment

The selected firm will provide environmental planning studies to support and documentation to address the requirements of the National Environmental Policy Act (NEPA) and the Connecticut Environmental Policy Act (CEPA). The studies and environmental documentation will consider the long-term interchange improvements recommended by the ongoing Planning and Environmental Linkages (PEL) study, which is anticipated to require an Environmental Impact statement (EIS) and corresponding Environmental Impact Evaluation (EIE) under CEPA. The team may also be tasked with further evaluation and environmental documentation for near-term breakout projects identified by the PEL. The selected firm will assess and further analyze the recommended National Environmental Policy Act (NEPA) class(es) of action for these potential projects identified. Discrete engineering tasks to support environmental analysis and development of projects identified during the PEL study process, up to and including Preliminary Design, may be included in the assignment. This assignment may also include permitting efforts. Final design services to provide contract documents (plans, specifications, and estimates) for a traditional design-bid-build contract(s), will not be part of this assignment. – **Anticipated solicitation March 2024**

2449

Connection of Route 2 to I-91 over CT River – Environmental Document/NEPA/PE/PD

1

Legal Notice, recent selection does not apply to this assignment

The selected firm will provide environmental planning studies to support and documentation to address the requirements of the National Environmental Policy Act (NEPA) and the Connecticut Environmental Policy Act (CEPA) for the subject project, which is anticipated to require an Environmental Impact statement (EIS) and corresponding Environmental Impact Evaluation (EIE) under CEPA. Additionally, the selected firm will perform preliminary engineering to support environmental analysis and further development of the conceptual layout identified in the Greater Hartford Mobility Study Final Report. This includes development of alternatives and engineering and permitting efforts up to and including Preliminary Design. Final design services to provide contract documents (plans, specifications, and estimates) for a traditional design-bid-build contract(s), will not be part of this assignment. – **Anticipated solicitation February 2024**

2450

River Gateway – Environmental Document/NEPA/PE/PD (Potential if DOT Receives Community Connectivity Grant)

1

Legal Notice, recent selection does not apply to this assignment

The selected firm will provide environmental planning studies to support and documentation to address the requirements of the National Environmental Policy Act (NEPA) and the Connecticut Environmental Policy Act (CEPA) for the subject project, which is anticipated to require an Environmental Assessment (EA) and corresponding Environmental Impact Evaluation (EIE) under CEPA. Additionally, the selected firm will perform preliminary engineering to support environmental analysis and further development of the conceptual layout identified in the Greater Hartford Mobility Study Final Report. This includes development of alternatives and engineering and permitting efforts up to and including Preliminary Design. Final design services to provide contract documents (plans, specifications, and estimates) for a traditional design-bid-build contract(s) will not be part of this assignment. – **Anticipated solicitation dependent upon grant award**

2451

Planning & Design Services for Replacement of the Saugatuck River Railroad Bridge In Westport & other Railroad Related Improvements between MP 43.27 to MP 48.77

1

Legal Notice, recent selection does not apply to this assignment

The Department is seeking to engage one (1) consultant engineering firm to provide planning and design services for the preparation of studies, plans, specifications, estimates, permitting and other necessary documents for rail related improvements between MP 43.27 to MP 48.77 (Norwalk to Westport); services will include NEPA and CEPA documentation for Project No. 0301-0XXX, which includes the full replacement of Bridge No. 08032R MNR NH 44.32 Saga Movable, which carries Metro-North Commuter Railroad over Saugatuck River and Ferry Lane, in Westport with either a fixed span or movable span structure. The anticipated Class of Action for this project is an Environmental Assessment (EA) and Environmental Impact Evaluation (EIE) under CEPA. Planning, permitting and design services may also include other features within the 5-mile track segment such as station improvements, rail re-alignment, catenaries and other associated structures. – **Anticipated solicitation March 2024**

2452

Construction Engineering & Inspection for Project 172-524

1

Prequalification Category:

Construction Engineering & Inspection (Road & Bridge)

The Department is seeking to engage one (1) firm to perform the Construction Engineering and Inspection services for the following project:

Project No. 0172-0524 – Replacement of Roadway Illumination Systems in District 2. This contract is scheduled to be advertised on June 5, 2024, with a scope of “I”.
