The project is identified as State Project No. 0001-0106.

The purpose of the project is to replace the existing structure due to its Culvert rating of 3, Serious. The proposed replacement is an 80-foot clear span AASHTO concrete box beam.

There are right-of-way impacts associated with the proposed improvements. Temporary relocation of overhead utilities for work clear zones and minor property takings for the wingwalls are anticipated.

Construction is anticipated to begin in spring 2023 based on the availability of funding, acquisition of rights of way and approval of permit(s).
