Final Decision

Applicant: Connecticut Children's Medical Center

Docket Number: 10-31559-WVR

Project Title: Request to Waive CON Requirements for the Replacement of an Existing 6-Slice CT Scanner with a 64-Slice CT Scanner in Hartford

Statutory Reference: Section 19a-639c of the Connecticut General Statutes as amended by Public Act: 09-232, Section 96

Filing Date: February 26, 2010

Decision Date: March 10, 2010

Staff: Jack A. Huber

Project Description: The Connecticut Children's Medical Center requests a waiver of Certificate of Need requirements for replacement equipment for the purpose of replacing its existing 6-slice computed tomography ("CT") scanner with a 64-slice CT scanner to be located at the Hospital's main campus in Hartford, Connecticut. The total capital cost associated with the replacement equipment project is \$1,400,000.

Nature of Proceedings: On February 26, 2010, the Office of Health Care Access ("OHCA") received the completed waiver of Certificate of Need ("CON") request for replacement equipment from the Connecticut Children's Medical Center ("Hospital"). The Hospital proposes to replace its 6-slice CT scanner with a 64-slice CT scanner to be located at the Hospital's main campus in Hartford, Connecticut. The total capital cost associated with the replacement equipment project is \$1,400,000. The Hospital is a health care facility or institution as defined in Section 19a-630 of the Connecticut General Statutes ("C.G.S.").

OHCA's authority to review and approve, modify or deny the requested waiver of CON requirements for replacement equipment is established by Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96. The provisions of this section as well as the principles and guidelines set forth in Section 19a-637, C.G.S., were fully considered by OHCA in its review.

Findings of Fact

1. On January 2, 2004, under Docket Number: 03-30090-CON, the Connecticut Children's Medical Center ("Hospital") received Certificate of Need ("CON") authorization from the Office of Health Care Access for the acquisition and operation of a 6-slice CT scanner at a capital equipment cost of \$800,000. The CON authorization also included approval for the Hospital to acquire and operate a MRI scanner and to undertake renovation work to accommodate the two scanners. *(February 26, 2010, Initial Submission of CON Waiver Form 2040, Attachment 1)*
2. Pursuant to Section 19a-639c of the Connecticut General Statutes ("C.G.S.") as amended by Public Act: 09-232, Section 96, a proposal may be eligible for a waiver of replacement equipment from the CON process when a provider previously received a CON for the equipment to be replaced, and the expenditure or value of the replacement equipment is less than \$3 million. *(Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96)*
3. The total capital cost for the replacement equipment proposal is \$1,400,000 and is attributable to \$1,200,000 for the purchase of the proposed 64-slice CT scanner and \$200,000 in other project costs. *(February 26, 2010, Initial Submission of CON Waiver Form 2040, pages 4 and Attachment 2)*
4. The replacement equipment value is below the \$3 million threshold used to determine whether a request is eligible to receive a waiver of CON requirements for replacement equipment pursuant to Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96. *(Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96)*

Rationale

The Connecticut Children's Medical Center ("Hospital") is requesting a waiver of Certificate of Need ("CON") requirements for replacement equipment pursuant to Section 19a-639c of the Connecticut General Statutes ("C.G.S.") as amended by Public Act: 09-232, Section 96. The Hospital is seeking to replace its existing 6-slice computed tomography ("CT") scanner with a 64-slice CT scanner to be located at the Hospital's main campus in Hartford, Connecticut.

On January 2, 2004, under Docket Number: 03-30090-CON, the Hospital received CON authorization from the Office of Health Care Access for the acquisition and operation of a 6-slice CT scanner at a capital equipment cost of \$800,000. The replacement equipment cost for the proposed 64-slice CT scanner is \$1,200,000, which is below the \$3 million threshold for determining eligibility for a waiver of CON requirements for replacement equipment pursuant to Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96.

Order

Based on the foregoing Findings and Rationale, the Office of Health Care Access ("OHCA") has determined that the request of the Connecticut Children's Medical Center ("Hospital") for a waiver of Certificate of Need ("CON") requirements in order to replace its existing 6-slice computed tomography ("CT") scanner with a 64-slice CT scanner to be located at the Hospital's main campus in Hartford, Connecticut, at a replacement equipment cost of \$1,200,000, meets the requirements for waiver of the CON process pursuant to Section 19a-639c of the Connecticut General Statutes as amended by Public Act: 09-232, Section 96, and is hereby **approved**, subject to the following condition.

1. This authorization requires the removal of the Hospital's existing 6-slice CT scanner for certain disposition, such as sale or salvage, outside of and unrelated to the Hospital's Connecticut service locations by no later than six months after the replacement CT scanner has become operational.

Should the Hospital fail to comply with the aforementioned condition, OHCA reserves the right to take additional action as authorized by law. All of the foregoing constitutes the final order of the Office of Health Care Access in this matter.
