Office of Health Care Access Certificate of Need Application

Final Decision

Applicant: Northeast Radiology of Connecticut, LLC

Docket Number: 10-31608-WVR

Project Title: Request to Waive CON Requirements for the Replacement of an Existing 1.0 Tesla-Strength MRI Scanner with a 1.5 Tesla-Strength MRI Scanner in Danbury

Statutory Reference: Section 19a-639c of the Connecticut General Statutes as amended by Public Act: 09-232, Section 96

Filing Date: May 3, 2010

Decision Date: May 7, 2010

Staff: Jack A. Huber

Project Description: Northeast Radiology of Connecticut, LLC, requests a waiver of Certificate of Need requirements for replacement equipment for the purpose of replacing its existing 1.0 tesla-strength magnetic resonance imaging (“MRI”) scanner with a 1.5 tesla-strength MRI scanner at its office located at 73 Sandpit Road in Danbury, Connecticut. The total capital cost for the replacement equipment project is \$2,069,440.

Nature of Proceedings: On May 3, 2010, the Office of Health Care Access (“OHCA”) received the completed waiver of Certificate of Need (“CON”) request for replacement equipment from Northeast Radiology of Connecticut, LLC (“Applicant”). The Applicant proposes to replace its existing 1.0 tesla-strength magnetic resonance imaging (“MRI”) scanner with a 1.5 tesla-strength MRI scanner at its office located at 73 Sandpit Road in Danbury, Connecticut. The total capital cost for the replacement equipment project is \$2,069,440.

OHCA’s authority to review and approve, modify or deny the requested waiver of CON requirements for replacement equipment is established by Section 19a-639c of the Connecticut General Statutes (“C.G.S.”) as amended by Public Act: 09-232, Section 96. The provisions of this section as well as the principles and guidelines set forth in Section 19a-637, C.G.S., were fully considered by OHCA in its review.

Findings of Fact

1. On April 7, 2005, Northeast Radiology of Connecticut, LLC ("Applicant") received a Certificate of Need ("CON") determination from the Office of Health Care Access ("OHCA") under Report Number: 05-30472-DTR. The determination report indicated that the Applicant was not required to obtain CON authorization to acquire a 1.0 tesla-strength magnetic resonance imaging ("MRI") scanner for use at its office located at 73 Sandpit Road in Danbury, Connecticut. *(May 3, 2010, CON Waiver Form 2040, page 2 and Attachment 1, pages 5 through 7)*
2. Pursuant to Section 19a-639c, of the Connecticut General Statutes ("C.G.S.") as amended by Public Act: 09-232, Section 96, a proposal may be eligible for a waiver of replacement equipment from the CON process when a provider has previously obtained a determination that a CON was not required for the original acquisition of the equipment and the expenditure or value of the replacement equipment is less than \$3 million. *(Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96)*
3. The total capital cost for the replacement equipment proposal is \$2,069,440. The proposal's costs consist of \$1,769,440 for the acquisition of the replacement MRI scanner and \$300,000 for other project costs. *(May 3, 2010, CON Waiver Form 2040, page 2)*
4. The replacement equipment cost is below the \$3 million threshold used to determine whether a request is eligible to receive a waiver of CON requirements for replacement equipment pursuant to Section 19a-639c, C.G.S. as amended by Public Act: 09-232, Section 96. *(Section 19a-639c, C.G.S., as amended by Public Act: 09-232, Section 96)*

Rationale

Northeast Radiology of Connecticut, LLC ("Applicant") is requesting a waiver of Certificate of Need ("CON") requirements for replacement equipment pursuant to Section 19a-639c of the Connecticut General Statutes ("C.G.S.") as amended by Public Act: 09-232, Section 96. The Applicant is seeking to replace its existing 1.0 tesla-strength magnetic resonance imaging ("MRI") scanner with a 1.5 tesla-strength MRI scanner at its office located at 73 Sandpit Road in Danbury, Connecticut.

On April 7, 2005, the Applicant received a CON determination from the Office of Health Care Access under Report Number: 05-30472-DTR. The Applicant was informed that it was not required to obtain CON authorization for the acquisition of a 1.0 tesla-strength MRI scanner for use at its office located at 73 Sandpit Road in Danbury, Connecticut.

The replacement equipment cost for the proposed 1.5 tesla-strength MRI scanner is \$1,769,440, which is below the \$3 million threshold for determining eligibility for a waiver of CON requirements for replacement equipment pursuant to Section 19a-639c, C.G.S. as amended by Public Act: 09-232, Section 96.

Order

Based on the foregoing Findings and Rationale, the Office of Health Care Access (“OHCA”) has determined that the request of Northeast Radiology of Connecticut, LLC (“Applicant”) for a waiver of Certificate of Need (“CON”) requirements in order to replace its existing 1.0 tesla-strength magnetic resonance imaging (“MRI”) scanner with a new MRI scanner at its office located at 73 Sandpit Road in Danbury, Connecticut, at a replacement equipment cost of \$1,769,440, meets the requirements for a waiver of the CON process pursuant to Section 19a-639c of the Connecticut General Statutes as amended by Public Act: 09-232, Section 96, and is hereby **approved**, subject to the following condition.

1. This authorization requires the removal of the Applicant’s existing 1.0 tesla-strength MRI scanner for certain disposition, such as sale or salvage, outside of and unrelated to the Applicant’s Connecticut service locations by no later than six months after the replacement MRI scanner has become operational.

Should the Applicant fail to comply with the aforementioned condition, OHCA reserves the right to take additional action as authorized by law. All of the foregoing constitutes the final order of the Office of Health Care Access in this matter.

By Order of the Division of
Office of Health Care Access
Department of Public Health
