Independent Auditor's Report

To the Board of Trustees of Lawrence + Memorial Hospital

We have audited the accompanying consolidated financial statements of Lawrence + Memorial Hospital and its subsidiary (a subsidiary of Lawrence + Memorial Corporation, the "Hospital"), which comprise the consolidated balance sheets as of September 30, 2015 and 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Hospital at September 30, 2015 and September 30, 2014, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual organizations and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual organizations.

The accompanying notes are an integral part of these consolidated financial statements.

1. Significant Accounting Policies and Organization

Organization

Lawrence + Memorial Hospital (the "Hospital"), a non-profit organization incorporated under the General Statutes of the State of Connecticut, is a wholly owned subsidiary of Lawrence + Memorial Corporation (the "Corporation"). The Board of the Corporation elects a Board of Directors who manages the property and affairs of the Hospital.

Principles of Consolidation

The consolidated financial statements include the accounts of the Hospital and its wholly owned subsidiary, Associated Specialists of Southeastern Connecticut, Inc. ("Associated Specialists"). All intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying footnotes. Actual results could differ from those estimates and there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital's significant estimates include the collectability of patient accounts receivable, useful lives of fixed assets, estimated settlements due to third party payors, valuation of certain investments, estimated reserves for self-insurance liabilities, and benefit plan assumptions.

Regulatory Matters

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access ("OHCA").

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time frame or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and its subsidiary in perpetuity or in funds held in trust by others whose purpose is for the funds to be maintained in perpetuity.

Donor Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions in the accompanying consolidated statements of operations.

Cash and Cash Equivalents

The Hospital and its subsidiary consider all highly liquid investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Investments

Investments in equity and debt securities are recorded at fair value in the balance sheet. Fair value is generally determined based on quoted market prices where available or net asset values provided by investment managers. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments are included in the change in net assets.

Realized and unrealized gains and losses on donor restricted endowment funds are included in temporarily restricted net assets under State law which allows the Board to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends and general economic conditions.

Investments in limited liability companies are accounted for using the equity method in instances where the limited partner's interest is more than minor (3-5%).

Fair Value Measurements

Fair value guidance establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entities own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Hospital for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

- Level 1 Quoted prices in active markets for identical assets.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as
 quoted prices for similar assets in active markets, quoted prices in markets that are not active,
 or can be corroborated by observable market data for substantially the same term of the
 assets.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Assets Held in Trust by Others

The Hospital has been named sole or participating beneficiary in several perpetual and charitable remainder trusts. Under the terms of these trusts, the Hospital has the irrevocable right to receive the income earned on the trust assets in perpetuity from the perpetual trusts and to receive the remainder of the trust assets for the charitable remainder trusts. For perpetual trusts, the estimated present value of the future payments to the Hospital is recorded at the fair value of the assets held in the trust. The charitable remainder trusts are recorded at the present value of the estimated future distributions expected to be received over the expected term of the trust agreement. The Hospital uses appropriate credit adjusted rates. In 2015 a significant remainder trust payment of \$4 million was received from the estate of a donor in accordance with the terms of

the trust document. At the time of the trust termination, the trust was recorded at \$3.2 million and based on the value of the trust received; \$.8 million was recorded as a change in value of irrevocable trusts in the Hospital's change in temporarily restricted net assets. The release from restriction of the \$4 million for use on operations was recorded on the Corporation's Statement of Operations as all gifts and development activity is recorded at the Corporation.

Assets Limited as to Use

Assets limited as to use include assets set aside by the Board of Directors and contribution receivables for the established purpose of providing for future improvement, expansion and replacement of plant and equipment. In addition, the Hospital's interest in externally managed trusts, and unexpended bond proceeds for construction purposes are also included therein.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost, or, if received as a donation, at the fair value on the date received. The Hospital provides for depreciation of property, plant and equipment using the straight-line method in amounts sufficient to amortize the cost of its assets over their useful lives. American Hospital Association lives are generally used and provide for a 2-25 year life for land improvements, 5-50 year life for buildings and 2-25 year life for equipment. Lease improvements are amortized over the life of the lease.

Nonoperating Gains and Losses

Activities other than in connection with providing health care services are considered to be nonoperating.

Excess of Revenues Over Expenses

The consolidated statement of operations includes excess of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and pension-related charges other than periodic pension costs and other postretirement benefits liabilities.

Fair Value of Financial Instruments

Certain investments and other assets and liabilities are carried at amounts that approximate fair value based on current market conditions. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues or on current rates offered to the Hospital for debt of the same remaining maturities.

Medical Malpractice Self-Insurance

The Hospital purchases claims made-based professional and general liability insurance to cover medical malpractice claims from L + M Indemnity, Ltd., a wholly owned subsidiary of the Hospital's parent. The Hospital has adopted the policy of self-insuring the tail coverage portion of its malpractice insurance coverage. Management has accrued the estimate of losses anticipated to be incurred.

Income Taxes

The Hospital and its wholly owned subsidiary, Associated Specialists, are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c) (3) of the Internal Revenue Code.

Inventories

Inventory consists of supplies, both medical and general, pharmaceuticals and food products needed to sustain daily operation of patient care. Inventories are carried at the lower of cost or market under the first-in-first-out (FIFO) method.

Impairment of Long-Lived Assets

Long-lived assets to be held and used are reviewed for impairment whenever circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to dispose.

Accrued Vacation and Sick Pay

Accrued vacation is recorded as a liability as time is earned. As the time is used, the time is relieved from the liability. Accrued sick time is recorded as a percent for employees who have a balance greater than or equal to 800 hours. This payout is only upon termination of employment.

Labor action update

The Hospital's negotiations with two of its three unions, AFT Healthcare, AFT-CT, AFT, AFL-CIO, Local 5049 (registered nurses) and AFT Healthcare, AFT-CT, AFLCIO, Local 5051 (licensed practical nurses and technicians) for a new contract resulted in a 4-day strike that commenced on November 27, 2013. The Hospital brought in temporary replacement workers, and, in order to provide ongoing patient care given the threat of additional, intermittent strikes, had a lockout of employees through December 18, 2013. The lockout was lifted and employees returned to work without a contract being reached. A contract was reached and ratified and the workforce had a three year contract that was signed in February 2014. The Hospital monitored the negative impact of the strike and lockout on both revenues and expenses. This impact consisted of a reduction in net revenue of approximately \$1,900,000 (unaudited) and \$12,300,000 (unaudited) of replacement workers, security and reduced salary costs during 2014.

Subsequent Events

The Hospital has performed an evaluation of subsequent events through January 5, 2016, which is the date the financial statements were issued.

2. Revenues from Services to Patients and Charity Care

The following summarizes net revenues from services to patients:

	2015	2014
Gross charges from services to patients Less: Charity care	\$ 843,024,228 5,427,817	\$ 795,287,303 5,449,069
Charges from services to patients, net of charity care	837,596,411	 789,838,234
Deductions Allowances State of Connecticut uncompensated care system	485,513,042 12,801,007	450,251,022 2,458,020
Total deductions	498,314,049	452,709,042
Net revenues from services to patients	\$ 339,282,362	\$ 337,129,192

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payors are different from established billing rates of the Hospital, and these differences are accounted for as allowances. The State of Connecticut has reduced Uncompensated Care Payments to all hospitals beginning July 2013 for a three year period. In 2014 and 2015, the Corporation paid cash into the State of Connecticut Uncompensated Care Pool that exceeded the amount was received from the State.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Adjustments related to prior year settlements increased the Hospital's revenues by approximately \$4,119,679 in 2015 and decreased the Hospital's revenues by approximately \$1,584,575 in 2014.

During 2015 and 2014, approximately 36% and 35%, respectively, of net patient service revenue was received under the Medicare program, and 12% and 11%, respectively, under the state Medicaid program. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation. Noncompliance could result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and reductions of funding levels could have an adverse impact on the Hospital.

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized federal poverty income guidelines.

Fair value for Level 1 is based upon quoted prices in active markets that the Hospital has the ability to access at the measurement date. Market price data is generally obtained from exchange or dealer markets. The Hospital does not adjust the quoted price for such assets.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.

Fair value for Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all and reflect assumptions based on the best information available in the circumstances.

Investments included in Level 3 primarily consist of the Hospital's ownership in alternative investments (principally limited partnership interests in hedge funds). The value of these alternative investments represents the ownership interest in the net asset value ("NAV") of the respective partnership. The fair values of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities relate. Also included in Level 3 investments are charitable remainder trusts held by third parties which are recorded at the present value of the future distributions expected to be received over the term of the agreement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Hospital believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table is a roll forward of the amounts by investment type for financial instruments classified by the Hospital within Level 3 of the fair value hierarchy defined above:

	Beginning October 1, 2014	Investment Income	Realized Gains	Unrealized Gains	Investment Fees	Purchases	Sales	Ending September 30, 2015

None of the funds invested in are finite lived. Unfunded commitments at September 30, 2015 total approximately \$5.4 million and relate to private equity funds. There are no liquidity restrictions in place at September 30, 2015.

4. Endowment

The Hospital's endowment consists of donor restricted endowment funds for a variety of purposes. The net assets associated with endowment funds including funds designated by the Board of Directors to function as endowments are classified and reported based on the existence or absence of donor imposed restrictions.

The Hospital understands net asset classification guidance requires that donor restricted endowment gifts be maintained in perpetuity. Consistent with net asset classification guidance, the Hospital classified as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Hospital considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund.
- The purposes of the Hospital and donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Hospital.
- The investment policies of the Hospital.

Total endowment funds classified as permanently restricted net assets	\$ 2,839,683	\$ 2,839,683

Endowment Funds With Deficits

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the value of the initial and subsequent donor gift amounts (deficit). When donor endowment deficits exist they are classified as a reduction of unrestricted net assets.

Endowment Investment Return Objectives and Risk Parameters

The Hospital has adopted endowment investment and spending policies that attempt to provide a predictable stream of funding to programs supported by the endowment while seeking to maintain the permanent nature of endowment funds. Under this policy, the return objective for the endowment assets measured over a full market cycle shall be to maximize the return against a blended index, based on the endowment's target asset allocation applied to the appropriate individual benchmarks.

Strategies Employed for Achieving Endowment Investment Objectives

To achieve its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term objectives within prudent Hospital risk constraints.

Endowment Spending Allocation and Relationship of Spending Policy to Investment Objectives

Spending is guided by several factors most important is the value of the portfolio. Generally, the Board will approve a spending policy limiting annual expenditures for grants and operating expenses up to 4.5% of the value of the Funds' assets based on a 12 quarter rolling average for the endowment and operating funds.

Investment managers are given ample notice of the required withdrawal schedule. Appropriate liquidity is maintained to fund these withdrawals without impairing the investment process.

5. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at September 30, 2015 and 2014:

	2015	2014

On September 15, 2011 the Connecticut Health and Education Facilities Authority ("CHEFA") issued \$58,940,000 of Series F Bonds (the "Series F Bonds") on behalf of the Hospital and Lawrence + Memorial Corporation (collectively referred to as the "Obligated Group" under the Series F Bond agreements). The Series F Bonds are structured with a term bonds due at various dates through July 1, 2036, with annual sinking fund payments due each July 1st. Interest on the Series F Bonds is payable semiannually on the first business day of January 1 and July 1 which began on January 1, 2012.

The tax exempt lease was obtained on June 27, 2013 in the principal amount of \$12,000,000. This is a seven year equipment lease on specific capital purchases that is administered through CHEFA and Bank of America-Merrill Lynch. This lease obligations will be amortized monthly through June 27, 2020 at a nominal annual interest rate of 1.759%.

On October 10, 2013 Series G was issued in a private placement offering with Bank of America-Merrill Lynch and CHEFA in the amount of \$29,200,000 with an interest rate of 3.20% until October 1, 2023 with an option to extend at a negotiated rate with a maturity date of July 1, 2038.

On November 5, 2013, Series H was issued by CHEFA to refinance Series E. Series H was issued in the amount of \$21,405,000 with a variable rate and a maturity date of July 1, 2034. This bond has a letter of credit guaranteed by T.D. Bank. Interest on the Series H Bonds accrues at the weekly rate and is payable on the first business day of each month commencing January 1, 2014.

Under the terms of the trust indenture for the Series F, G and H Bonds, the Obligated Group is required to meet certain financial covenants including a debt service coverage ratio and days cash on hand ratio. Members of the Obligated Group are jointly and severally obligated to provide amounts sufficient to enable the Authority to pay principal and interest on the Series F, G and H Bonds. The Bonds and bond proceeds have been allocated to the Hospital and as such, the Hospital will make future debt service payments as required under the terms of the bonds.

The bonds may be retired at an earlier date pursuant to terms of the master indenture. Payment of the bonds is collateralized by a pledge of the gross receipts, as defined and certain real property of the Hospital.

The Series H Bonds are considered variable rate demand bonds and are remarketed on a weekly basis. The Hospital maintains a letter of credit in the amount of \$21,405,000 which expires on November 5, 2016. If the bonds are unable to be remarketed, the letter of credit could be utilized to purchase the bonds. The Obligated Group would then be subject to the payment terms of the letter of credit, which are monthly installments. The Series H Bonds have been successfully remarketed in the past and there have been no draws on the letter of credit.

The fair value of the outstanding bonds is \$101,550,368 and \$106,215,296 at September 30, 2015 and, 2014, respectively.

Principal repayments on the outstanding long term debt are as follows:

Years	Annual Principal Repayment
2016	\$ 5,495,740
2017	5,730,772
2018	5,916,285
2019	6,142,340
2020 and thereafter	82,720,877_
	\$ 106,006,014

The Hospital made cash interest payments of \$3,495,549 and \$3,566,051 in fiscal year 2015 and 2014, respectively. No interest was capitalized during 2015 or 2014.

8. Pension and Other Postretirement Benefits

The Hospital has a defined benefit plan covering all employees who elected to stay in the plan. The plan is frozen to new participants as of June 30, 1999. The benefits are based on years of service and the employee's compensation during the last five years of employment.

The Hospital provides health care and life insurance benefits to its retired employees who meet certain eligibility requirements. The Hospital's policy is to fund the cost of postretirement benefits other than pension as incurred. This plan was frozen to include only those employees who retired prior to May 1, 1994.

The following table sets forth the Plans' funded status and amounts recognized in the consolidated balance sheet at September 30, 2015 and 2014 (measurement date of September 30):

The net actuarial loss of approximately \$4.4 million is due to a loss of approximately \$7.5 million due to a change in mortality table offset by gains due to decrease in discount rate and other changes in assumptions.

The weighted average assumptions used to determine the net benefit cost at the beginning of the year are as follows:

	2015	2014
Discount rate	4.05 %	4.51 %
Average rate of compensation increases	2.50 %	2.50 %
Expected return on assets	7.50 %	7.50 %

The weighted average assumptions used to determine the benefit obligation at the end of the year are as follows:

	2015	2014
Discount rate	4.10 %	4.05 %
Average rate of compensation increases	2.50 %	2.50 %

The Plan's asset allocations as of September 30 are as follows:

Asset Category	2015	2014	
Cash	2 %	2 %	
Bonds	32	24	
Mutual funds	26	45	
Hedge funds	40	29	
	100 %	100 %	

The expected rate of return on assets is calculated based on past experience.

Expected benefits to be paid under the plans are as follows:

Fiscal Years Beginning October 1,		Expected Benefits
2015	\$	7,940,500
2016		8,280,197
2017		8,395,891
2018		8,784,310
2019		9,069,440
Expected aggregate for 5 fiscal years beginning 2020		49,712,011

Annual employer contributions are determined by the Hospital based upon calculations prepared by the plan's actuary. Expected contributions to the plans for 2016 are approximately (unaudited):

Pension	\$ 7,940,000
Retiree health	89,642

The weighted-average annual assumed rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) for participants is assumed to be 8% in 2015 reducing to 5.0% by the year 2020 and remaining at that level thereafter. This health care cost trend rate assumption has a significant effect on the amounts reported. To illustrate, a one percentage point increase in the assumed health care cost trend rate would increase the accumulated post-retirement benefit obligation and service cost plus interest cost by approximately \$49,000 and \$56,000, respectively, at September 30, 2015 and 2014. A one percentage point decrease in the assumed health care cost trend rate would decrease the accumulated postretirement benefit obligation and service cost plus interest cost by approximately \$45,000 and \$51,000, respectively, at September 30, 2015 and 2014.

Plan Assets

The defined benefit plan assets are valued utilizing the same fair value hierarchy as the Hospital's investments as described in Note 1.

The following table summarizes the fair values of investments by major type held by the pension plan at September 30, 2015:

	Level 1	Level 2	Level 3	2015
Investments, at fair value				
Cash	\$ 2,345,782	\$ -	\$ -	\$ 2,345,782

Total investments, at fair value	\$ 76,547,017	\$ 5,171,869	\$ 33,457,838	\$ 115,176,724

There were transfers between levels during 2015 and no transfers during 2014.

The table below represents the change in fair value measurements for Level 3 investments held by the plan for the years ended September 30:

2015	2014
\$ 33,457,838	\$ 31,893,958

	\$ 33,457,838 554,617 (204,757) (3,485,723) 14,100,000

The investment objective for the pension and post retirement plans seeks a positive long-term total return after inflation to meet the Hospital's current and future plan obligations.

Asset allocations combine tested theory and informed market judgment to balance investment risks with the need for high returns.

The Hospital's 401(k) plan covers eligible employees who elect to participate. Eligible employees may contribute a percentage of their salary. The Hospital matches 100% of the first 4% of gross pay deferred by employees for those employees who do not participate in the defined benefit plan. Contributions charged to operations were approximately \$3,416,963 and \$3,296,282 for 2015 and 2014, respectively.

9. Functional Expenses

The Hospital provides general health care services to residents within its geographic location including pediatric care, cardiac catheterization, and outpatient surgery. Expenses by function are as follows:

	2015	2014
Health care services General and administrative	\$ 249,259,940 104,066,639	\$ 258,736,071 95,094,590
	\$ 353,326,579	\$ 353,830,661

10. Contingencies

The Hospital is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on the Hospital's financial position, results of operations, changes in net assets or cash flows.
